

Pathein, Myanmar

Despite the **COVID pandemic**, participation in our project was high.

74% of the budget was spent.

Trends of improvements in integrated governance

6. A framework for joined monitoring and learning

Six elements of integrated governance:

1. Coordination among different departments with local governments

5. Coordinating investment in infrastructure with capacity development

2. Coordination with other government actors

4. Synergies between social, economic, environmental and governance aspects

3. Cooperation with non-governmental stakeholders

Example output products:

Presentation of recommendations on the integration of waste management in planning and budgeting in Pathein municipality.

14 drainage lanes were dug.

Composting containers and billboard on organic waste awareness; vinyl information sheets on how to use them.

Output goals

Sustainable waste and water management in flood prone areas

Outcome (long term)

Reduced environmental impact and enhanced living conditions for residents in flood prone areas
