

Beira, Mozambique

The **COVID pandemic** was the biggest delaying factor on the project in 2020.

79% of the budget was spent. Savings were reallocated to the 2021 budget.

Trends of improvements in integrated governance

6. A framework for joined monitoring and learning

Six elements of integrated governance:

5. Coordinating investment in infrastructure with capacity development

1. Coordination among different departments with local governments

2. Coordination with other government actors

4. Synergies between social, economic, environmental and governance aspects

3. Cooperation with non-governmental stakeholders

Example output products:

The revaluation of 800 properties resulted in €300.000 tax revenue increase

Training client approach to improve interdepartmental work procedures

Evaluation restoration livelihood Maraza

As a result of the digitalization of new incoming land titles, the total amount of land titles increased to 34.886, so 4.886 above target (30.000)

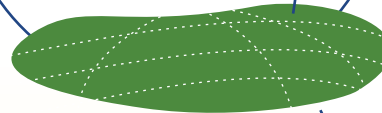

Output goals

Improved tax revenues

Improved land administration

Outcome (long term)

More municipal capacity to make Beira **more climate resilient**
